Last Review: 11/29/2023

Next Review: 11/29/2024

Important note: Unless otherwise indicated, medical policies will apply to all lines of business.

Medical necessity as defined by this policy does not ensure the benefit is covered. This medical policy does not replace existing federal or state rules and regulations for the applicable service or supply. In the absence of a controlling federal or state coverage mandate, benefits are ultimately determined by the terms of the applicable benefit plan documents. See the member plan specific benefit plan document for a complete description of plan benefits, exclusions, limitations, and conditions of coverage. In the event of a discrepancy, the plan document always supersedes the information in this policy.

SERVICE:

PRIOR AUTHORIZATION: Varies by plan

POLICY: This policy lists the diagnoses and ICD 10 codes that are in scope for the utilization review agent vendor, OncoHealthTM (OH). OH conducts prior authorization reviews for **medical benefit** coverage requests for select oncology medications and other medications and interventions used for oncologic conditions if the diagnosis submitted is on the list below.

The following are out of scope for OH and should be submitted by the prescriber to the applicable utilization review entity:

- Medical benefit medication requests considered out of scope by OA will be reviewed by the health plan. Example: Medical benefit drug used for diagnosis not on list below.
- **Pharmacy benefit** medication requests for any diagnosis (including oncologic conditions) will be reviewed by the health plan **pharmacy benefit manager (PBM).**
